A FREE personalised Website to assist with updating family and friends of the patient's progress and journey during a difficult time

Web Site: www.icareupdates.com
Email: info@icareupdates.com

Some of the advantages are:

- It reduces the workload of family from phone calls, emails, SMS, etc. during a difficult time
- Friends and family can leave messages of love, thoughts and encouragement
- The hospital and medical staff are relieved of phone calls, etc. relating to the patient
- It helps limit incorrect information on a patient's condition
- The website can be used as a record of family and patient history and any messages that are posted on the site
- A secure login is issued to add, alter or delete information or messages
- A unique web address is issued for added security of information
- There are no advertisements on the website, other than reference to iCareUpdates
